

LOYOLA COLLEGE OF SOCIAL SCIENCES THIRUVANANTHAPURAM

Criteria 3- Research, Innovations and Extension

3.2- Innovation Ecosystem

3.2.1 Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

3.2.1-12: Awareness programme on Kerala Startup mission

An awareness programme on Kerala start up mission

Kerala Startup Mission (KSUM, formerly known as Technopark TBI) is the central agency of the Government of Kerala for entrepreneurship development and incubation activities in Kerala, India. KSUM was primarily founded to undertake the planning, establishment, and management of the Technology Business Incubator (TBI), a startup accelerator in Kerala, to promote technology-based entrepreneurship activities, and to create the infrastructure and environment required to support high-technology-based businesses.

Under the auspices of the innovation cell an orientation programme was organized to familiarize the students with the concept of Kerala start up mission and the various opportunities it offers for the innovative minds. Dr Sonny Jose was the faculty in charge of the programme. He got in touch with the Kerala Start up mission officials and they have sent their resource persons to take an orientation session for our students on 31st October 2017. The session taken by the team were very effective and introduced students regarding the concept and evolution of the Kerala Start up mission and its scope of operations. The session was indeed fruitful and gave an insight for our students regarding the various opportunities available in front of them to explore an innovative path.
