Department
of social
work

Established in 1964, the Department of Social Work was the first professional department under the University of Kerala to offer a Masters Degree in Social Work. The object of the department is to impart training to the graduates in order to become professionals in the diverse fields of social work. The department initially had Personnel Management as the sole specialization. In 1975 Medical Psychiatric Social Work specialization was introduced. In the year 2000 the 'Personnel Management' specialization was bifurcated from the MSW course and Community Development was added as another specialization. With a long tradition of professional education and action research culture our students get placement as soon as they complete the course.
